## Rapid Recall of GPCs

- Secure, rapid recall is crucial for learners to blend words effectively.
- It is important to pronounce GPCs as phonemes, not the letter names.

# Build Your Bespoke Training Session

Our comprehensive training is divided into a series of focused modules, each designed to be completed within one hour. This modular structure allows for flexibility and customisation to meet the unique needs of your setting.

Prior to the training session, you will have the opportunity to consult with your assigned trainer(s). During this, you will collaboratively select the specific modules that are most relevant and beneficial to your settings' particular requirements.

We offer two primary training formats:

- **Half-Day Training:** This option encompasses 3 modules and spans a duration of 3 hours.
- **Full-Day Training:** This 5-module option takes 5 hours to complete, plus an additional hour for lunch.

In addition to these standard formats, we also provide the alternative of distributing the training across multiple twilight sessions. This option is ideal for those who prefer a more gradual learning pace or have scheduling constraints. If you are interested in exploring the twilight session option, please feel free to discuss it with our team during the booking process.

The three core modules are essential for any school new to using the Twinkl Phonics SSP Programme and anyone who previously has not had Twinkl Phonics training.

Fundamentals of Phonics	Structure and Delivery	Level-Specific Lesson Walk-Through
Phonics Terminology	A Cohesive Whole-School Approach	Phonics Lesson Breakdown
